Title: EXTENSIBLE ARCHITECTURE FOR VERSIONING APIS

PRELIMINARY AMENDMENT

Commissioner for Patents
Washington, D.C. 20231

Before taking up the above-identified patent application for examination, please
amend the application as follows:

IN THE CLAIMS

- 09717533
8/17/01
A1
2. (Once Amended) The architecture of claim 1, wherein the one or more protocol providers includes at least two [three] protocol providers.
- 09717533
8/17/01
A2
18. (Once Amended) The method of claim 17, wherein parsing the second portion of the request based on results of parsing the first portion comprises:
passing the second portion to a command parser associated with only [with] one of the version stores, based on the first portion; and
parsing the second portion at the command parser associated with the one version store.
- 09717533
8/17/01
A3
21. (Once Amended) The method of claim 20, further comprising:
adding one or more version stores to the group of two or more version stores to form an extended group of [two] three or more version stores.
